

HEVECO

A PARTNER WITH 50 YEARS OF EXPERIENCE

Founded in 1962, Heveco, located in Tabusintac, New Brunswick, is a peat moss and growing mix supplier to North American, South American and Asian growers. Our success has come from personalized service to our customers, unique and high-performance mixes and determination to contribute to our customers' success.

IT ALL STARTS WITH PEAT MOSS...

To produce a great mix, it has to start with the right peat moss. Not only does Heveco have very large peat reserves but most of its bogs are quite young and contain very coarse and fibrous peat moss.

AND THEN THERE IS BLOCK-CUT PEAT MOSS

Heveco is the only block-cut peat moss producer in North America. Using this distinctive technique which preserves **the quality and coarseness of the peat**, we are able to produce **distinctive, high performance peat moss and mixes**.

PROFESSIONAL SPHAGNUM PEAT MOSS

Sizes				Peat types			
3.8 cft	5.5 cft	55 cft	110 cft	Xtra Fine	Regular	Coarse	Xtra Coarse

In addition to peat, a combination of ingredients can be included in recipes to provide mixes that will satisfy your specific needs.

- Perlite
- Compost
- Bark
- Coconut husk fibre
- Limestone
- Gypsum
- Fertilizer
- Wetting agent

Growing Mixes are offered in multiple sizes

- 2.8 cft (bag)
- 3.8 cft (bale)
- 5.5 cft (bale)
- 2.5 cyd (tote)
- 110 cft (quantum)

PRODUCT CONSISTENCY
Same quality from bale to bale

UNIQUE INGREDIENT
High quality block-cut peat moss

TECHNICAL SUPPORT
Helping you get better results

CUSTOMER SERVICE
Buy direct from the manufacturer and get the service you deserve!

The use of Hecomix allows you to produce plants with a vigorous and well developed root system. This is why many of the largest and most demanding growers are using Hecomix as a key to their success.
